At Clarus Partners, our Restaurant Financial and Tax Services group boasts professionals with years of experience working with and in the restaurant industry. We draw on this experience to provide practical, effective, and cost efficient solutions for our clients.

While delivering high-level consulting services, we keep a watchful eye on the industry to weigh its impact on a restaurant's financial reporting and tax results.

Timely Financial Reporting

Accurate and informative financial statements give management a tool that can be used to make informed operational decisions.

Operational Management

Our team is uniquely positioned to review and assist with daily operations, analyzing multiple transactions, ensuring accuracy, and advising management.

Consulting

Our team members' experience working internally with restaurants gives us valuable insight into the industry.

Budgeting

We can prepare budgets with forecasted profit levels and cash flow so you are able to have a benchmark to measure results against.

Sales Tax Compliance

Clarus Partners has years of experience filing sales tax returns for the restaurant industry, and extensive knowledge of regulations and compliance.

Income Tax Planning

Our team will work with you to develop business plans to lower your tax burden both now and in the future to help your company manage and mitigate risk.

Income Tax Reporting

Whether it's Federal, State, or Local tax reporting, our team is well-versed in tax laws and structures specific to the restaurant industry.
